The Delta Pi girls are not any hornier than any other sorority on campus, we just find way to satisfy our needs. If you walk down any hallway of a sorority house on any campus late at night you will hear the soft buzz of a vibrator. It doesn't matter if the school is in California or Florida or deep in the Bible belt. College girls need to be satisfied. I remember my freshman year when our sorority received it's own Sybian.

A Sybian if you don't know is a giant vibrator that does more than the average vibrator. This thing runs on normal house current, no batteries. It has a dildo like attachment that not only vibrates but also rotates. That's right this thing rotates inside of you and rubs your G-Spot as the rest is vibrating your clit. This machine does things that no man can do. The stories I had heard about this fuck machine includes, woman having as many as 10 orgasms, woman squirting, and woman fainting. This is one intense machine.

Jackie, our sorority president, had ordered the Sybian on line. It came with a money back guarantee so if we decided that the machine was all hype we could return it, and only be out a small processing fee. If you told anyone that you paid \$1300 for a vibrator that would think you were nuts.

Jackie was first. She showed us how one switch was for vibrating and the other was for rotating the dildo. You could also control the speed by turning a knob. My little battery vibrator did not come with instructions, I was impressed.

Jackie lube the dildo up, making it easier to insert. That was a relief for me because I was a virgin. I was just out of high school and although I had a few boyfriends I never went all the way. I had masturbated since I was 14, but never did much penetrating. This was going to be an experience for me.

Jackie straddled the saddle like machine and turns the vibrating switch on. We were able to see how her body jumped as the strong vibrator rubbed against her clit. Next she switched on the rotating dildo, she screamed with pleasure. Both controls were set to low but Jackie was having the ride of her life.

We started to chant, "Turn it up, turn it up," as Jackie began to shake with her first of many orgasms. By the time she got off her ride she said she had cum three times. And this was after only five minutes. The Sybian was living up to the reputation.

Vicky was the next girl. She eagerly jumped into the saddle like a professional bronco rider. "Give me the control," she shouted, I'll show you how this thing is done. Vicky turned the vibrator up to the half way mark and started to turn up the rotating dildo.

"This thing is fucking great," she shouted. "We are keeping this thing, there is no way we are sending it back. I don't care how much it cost." Vicky began to buck wildly as she was closing in on an orgasm. "Fuck I am cumming," she screamed.

Right then small squirts of liquid shot from her pussy, drenching the Sybian.

"Look at me I am squirting, I am fucking squirting from this thing."

I could not believe my eyes, this is one amazing machine. As Vicky pulled herself off the Sybian it was my turn. I took a deep breath and went for a ride.

I took off my skirt and blouse leaving my panties and bra on. I turned off the Sybian and started to slowly lower myself down. The girls in the room watched as I took my time penetrating myself. They did not know

why I was moving so slowly, they did not know this was the first time I had anything larger than a tampon inside me.

After what seem like forever I finally had the dildo inside of me. So far it was okay. There was a small amount of pain but I was getting use to it. I took the control and turned on the vibrating part, leaving it on low. I was not out to set any records here. I was going to take this nice and slow. It did not matter to me if I did not have a screaming orgasm like Vicky and Jackie. I would be satisfied with just the vibrator; I did not plan on turning on the rotating dildo.

The pain from my first penetration had subsided and I was getting great pleasure from the vibration on my clit. I could feel myself coming close to Cumming. Then Vicky pulled the control from my hand. "Jennifer, you need to turn on the rotating part," she said. With that she turned on the rotating dildo.

"FUCK!" I screamed. "Turn it off," I begged.

Vicky just laughed and turned both controls to high. I reached for the control but she stepped back. I felt my insides being ripped open. The rotating dildo was stretching my once virgin pussy. Having your cherry popped by a boy with a 6" dick is one thing but this machine was doing something to my cherry that no boy or man could do.

It was a mixture of pain and pleasure as I felt my body spasm out of control. From the look on the other girl's faces, they were intestinally watching me as I came. And I came hard. This was the most intense orgasm of my life. My pussy was spasming in a way it never had before.

As I pulled my exhausted and worn out body off of the Sybian, the girls in the room could not believe their eyes. I looked down thinking it would be wet like when Vicky was on it. But I saw traces of blood, the remains of my cherry. "Jennifer did you start your period?" Jackie asked.

I shook my head. I should have told you girls before, that I was a virgin. I wanted to ride the Sybian like the rest of you and was afraid if I told you I was a virgin you would have stopped me.

I reached down and found that there were more than a few drops of blood. My whole hand was covered. "Dam

this machine is not a toy. It is a serious piece of equipment. There should be a warning on it "Not for virgin riders."

The end.
